

Dear Colleagues,

We are happy to invite you to a three-day symposium on Alternative Splicing in Neurodegenerative Diseases and Cancer that will take place on February 7-9, 2010 in Tel Aviv University. The program will include talks by 11 international leaders in the field as well as 11 Israeli leaders (see attached poster) on February 7 and 8. On February 9, we will hold two practical workshops for biologists on (i) deep-sequencing and microarray analysis and (ii) genome-wide analysis of alternative splicing using bioinformatics tools.

The registration is free, BUT requires sending an email to Mrs. Elka Banon ([elkab@cc.huji.ac.il](mailto:elkab@cc.huji.ac.il)) with your information by December 20, 2009. (Those who are not on the list will not be allowed to enter.)

Yours,

Hermona Soreq (Hebrew University) Gil Ast (Tel Aviv University)
